Sanborn supports expanded Secretary of State services in Macomb County

LANSING – Faster and more convenient Secretary of State services are headed for Macomb County and across the state, said Sen. Alan Sanborn, R-Richmond Township.

Under a plan announced Monday, a SOS Plus office will be located in St. Clair Shores and an SOS Super!Center will be located in Clinton Township. The redesigned SOS Plus offices will offer additional full-time staff, on-site customer-service representatives, improved facility access, shorter waiting lines for customers and self-service stations allowing customers to renew registrations on credit cards and more. Super!Centers will offer all of the same services and will be open on Saturdays.

“I have reviewed Secretary of State Land’s plan to update services and improve efficiency throughout her department and in branch offices, across the state. I am very pleased to see that she is continuing and adding to the improvements started by her predecessor, Candice Miller,” Senator Sanborn said. “I am also pleased that, though Macomb County will be losing two of its current 12 branch offices, it will gain one new Super!Center and one new Plus Office, resulting in increased and improved service and accessibility for Macomb County residents.”

The SOS is scheduled to open its first redesigned office within 90. All new SOS Plus and SOS Super!Centers are expected to be open by the end of the year.
